Updated Buy/Sell Spreads for PIMCO Short Term Active Yield Fund

PIMCO Australia Management Limited from time to time may adjust the sell spreads charged by our funds. We believe this is the appropriate course of action and in the best interest of unitholders. Further, we believe these updated spreads are a better reflection of actual trading costs in the current environment.

As at the date of this document, the Buy/Sell Spread that applies for PIMCO Short Term Active Yield Fund is below. These changes are effective immediately and will apply to all applications and withdrawals for the Funds from **1 June 2026**. We will monitor the prevailing market conditions to determine whether further changes must be made to these spreads. Due to increased volatility in the market, the Buy/Sell Spread for the Funds may vary, including becoming higher.

	APIR	Buy Spread (%)	Sell Spread (%)
PIMCO Short Term Active Yield Fund – Wholesale Class	PIC7002AU	0.00%	0.08%
PIMCO Short Term Active Yield Fund – Active ETF Class	PIC3374AU	0.00%	0.08%

As a reminder, money charged under a Buy/Sell spread remains in the Fund and is not paid to PIMCO. The purpose of the spread is to maximize fairness for all unitholders in the Fund who otherwise would have borne the extent of the spread in the form of performance impact from other unitholders' transactions. Without charging an appropriate Buy/Sell Spread to unitholders when they enter and withdraw from a Fund, other unitholders are left bearing the costs of buying or selling the underlying assets of the Fund in order to give effect to the application or withdrawal of units.

Please contact PIMCO Investor Services on 1300 113 547 (Australia) or +61 2 9923 2583 or email pimco@unitregistry.com.au for more information.
