Maintaining perspective in times of financial volatility

The coronavirus (COVID-19) has changed the way we live and work. It has also inspired significant market fluctuations. This checklist below can help you focus on what’s likely to have the greatest impact on your financial success: maintaining a longer-term perspective, being thoughtful about portfolio allocation, understanding risk exposures and minimizing costs and taxes.

Don’t forget your long-term financial goals:
Try to maintain perspective by focusing on your long-term investment objectives rather than worrying about short-term market fluctuations. Emotional decisions are often not the wisest.

Revisit your risk tolerance:
If short-term market moves are getting the better of you, perhaps it’s time to revisit your risk tolerance with your financial professional. This exercise may inspire you to stay the course or to trim additional risk from your portfolios.

Reaffirm (or write) your Investment Policy Statement:
An Investment Policy Statement (IPS) can help determine the appropriate allocations and the guidelines for effective implementation. Make sure you and your financial professional have clearly defined your objectives, so that you can keep them in mind during emotional times of market fluctuations.

Review your cash needs:
Do you have immediate liquidity needs? If not, you may be in a strong position to ride out short-term market shocks.

Stay diversified:
Portfolio diversification, in line with your objectives and risk tolerance, can help mitigate volatility and potentially produce more consistent outcomes.

Rebalance regularly:
Meet with your financial professional to ensure your asset allocations are aligned with your long-term targets. Regular portfolio rebalancing instills a disciplined approach to decision making and sometimes inspires investors to take actions that may be emotionally uncomfortable but financially productive.

Consider tactical shifts:
Every investor is different. For some bouts of market volatility there may be an opportunity to buy equities. Others may look to add hard duration through core and long-duration strategies as a way to add resiliency to their portfolio. Check in with your advisor to review strategies.

Consider tax planning strategies:
Consider talking with your financial professional about mitigating tax implications now instead waiting until year-end.

KEY TAKEAWAYS
• Behavioral biases, especially in volatile times, may inspire investors to focus on short-term returns rather than long-term goals
• Financial professionals can play a critical role in helping maintain perspective and avoid costly mistakes

All investments contain risk and may lose value. Investing in the bond market is subject to risks, including market, interest rate, issuer, credit, inflation risk, and liquidity risk. The value of most bonds and bond strategies is impacted by changes in interest rates. Bonds and bond strategies with longer durations tend to be more sensitive and volatile than those with shorter durations; bond prices generally fall as interest rates rise, and low interest rate environments increase this risk. Reductions in bond counterparty capacity may contribute to decreased market liquidity and increased price volatility. Bond investments may be worth more or less than the original cost when redeemed. Equities may decline in value due to both real and perceived general market, economic and industry conditions. Diversification does not ensure against loss.

These materials are being provided on the express basis that they and any related communications will not cause Pacific Investment Management Company LLC (or any affiliate) (collectively, “PIMCO”) to become an investment advice fiduciary under ERISA or the Internal Revenue Code, as the recipients are fully aware that PIMCO (i) is not undertaking to provide impartial investment advice, make a recommendation regarding the acquisition, holding or disposal of an investment, act as an impartial adviser, or give advice in a fiducary capacity, and (ii) has a financial interest in the offering and sale of one or more products and services, which may depend on a number of factors relating to PIMCO (and its affiliates’) internal business objectives, and which has been disclosed to the recipient. These materials are also being provided on PIMCO’s understanding that the recipients they are directed to are all financially sophisticated, capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies. If this is not the case, we ask that you inform us immediately. You should consult your own separate advisors before making any investment decisions.

These materials are also being provided on the express basis that they and any related communications will not cause PIMCO (or any affiliate) to become an investment advice fiduciary under ERISA or the Internal Revenue Code with respect to any recipient or any employee benefit plan or IRA because: (i) the recipients are all independent of PIMCO and its affiliates, and (ii) upon review of all relevant facts and circumstances, the recipients have concluded that they have no financial interest, ownership interest, or other relationship, agreement or understanding with PIMCO or any of its affiliates which would impair any fiduciary responsibility that any recipient may have with respect to any Plan on behalf of which this information may be utilized. If this is not the case, or if there is any relationship with any recipient of which you are aware that would call into question the recipient’s ability to independently fulfill its responsibilities to any such Plan, we ask that you let us know immediately.

The information provided herein is intended to be used solely by the recipient in considering the products or services described herein and may not be used for any other reason, personal or otherwise.
