PIMCO Tax Form Summary

Tax Form	Description
1099-DIV	Reports dividend and capital gain distributions from your PIMCO funds, excluding retirement plan accounts. Tax-exempt income dividends paid by certain PIMCO municipal and tax managed funds are reported in Box 10 of your 1099-DIV. Any private activity bond interest, which may be subject to the alternative minimum tax (AMT), is in Box 11.
1099-B	Reports redemption proceeds, including exchanges out, of any non-money market funds in your non-retirement account. Your cost or other basis for shares that were sold and fall under the IRS's cost basis regulations is included on this form in Box 1e. This information is required to be reported to the IRS by PIMCO. If your shares have been transferred to PIMCO or have been converted, we may not be able to provide this cost basis information to you. For general information about cost basis and the regulations, see below or visit pimco.com/cost-basis .
1099-R	Reports any distributions (including rollovers, recharacterizations and conversions) taken from a retirement plan, such as an IRA, or any qualified retirement plan, such as a pension, profit sharing, 401(k) plan or tax-deferred annuity.

Dividend and Capital Gain Distributions FAQ

Q: What are distributions and why are they paid?

A: Fund distributions are earnings from the fund's operations. The law requires that all profits be passed on to the fund's investors in order for the fund to qualify for special tax rules afforded to funds that benefit the shareholder.

Q: What is a capital gain distribution?

A: When a fund sells portfolio securities at a profit, the sale creates a capital gain. Two types of capital gains are realized by PIMCO funds — short—term and long—term. Net short—term capital gains are distributed to shareholders as income dividends and are taxed at ordinary income tax rates. For 2015, long—term capital gain distributions are taxed at a maximum effective rate of 23.8% (20% maximum long—term capital gain rate plus 3.8% Medicare tax).

Q: How is a fund affected if there is no required distribution?

A: If a distribution is not required, there are no tax consequences to shareholders or to the fund. The fund's net asset value (NAV) and its investment performance will remain the same. If the fund has not made a taxable distribution, shareholders will not be required to pay taxes and will not receive a Form 1099–DIV for that fund.

Q: How is distribution eligibility determined for PIMCO funds?

- **A:** The timing of a distribution, and the determination of shareholder eligibility to receive it, is based on the record date, ex–dividend date, reinvestment date and payable date which are typically defined as follows:
 - **Record Date:** Purchases through this day are eligible to receive the distribution. Shares redeemed on this day are not eligible to receive the distribution.
 - Ex-Dividend Date: The date on which the distribution amount per share is deducted from the fund's NAV per share.
 - **Reinvestment Date:** The date on which the distribution proceeds will be reinvested, if so elected, in additional PIMCO fund shares. Shares will settle on the payable date.
 - **Payable Date:** The fund pays shareholders their proportional amount of any distribution on this date. For PIMCO funds, the payable date for distributions paid in cash, if so elected, is normally the same business day as the ex—dividend date, except for those funds with daily income distributions. PIMCO fund shares purchased with reinvested distributions are usually credited on the reinvestment date.

Cost Basis Regulation

A rule went into effect on January 1, 2012, requiring funds to report cost basis information to shareholders and to the IRS for "covered shares," or those shares purchased on or after January 1, 2012. When filing your tax return, you will be required to use the cost basis reported in Box 1e of Form 1099—B to calculate and report the gains and losses from your covered shares to the IRS. Please note that retirement accounts are excluded from the cost basis requirements.

For more information about the cost basis requirements, we encourage you to speak with your financial advisor or a tax professional. For general information about cost basis and the regulations, visit **pimco.com/cost-basis**.

2015 Income from U.S. Government Obligations

Certain PIMCO funds may have earned a portion of their income from U.S. government securities. All or part of the interest on these securities may be exempt from state and/or local taxation. Please consult a tax professional as laws in various jurisdictions may differ.

The table below reflects the percentage of ordinary dividends derived from U.S. government securities.

For the benefit of our corporate shareholders, we have also included the percentage of dividends that qualify for the corporate dividends—received deduction, assuming holding period requirements have been met.

Please use the contact information provided on page one, if you have questions or need assistance. You can also visit the Tax Center page of our website, **pimco.com/tax**.

For 2015, these funds represent the funds for which PIMCO elects to pass through foreign taxes paid to shareholders. 2015 Municipal Bond Fund Information

This section contains additional tax—related information for shareholders of one or more of the below PIMCO municipal bond and tax—managed funds for 2015.

At least 50% of the value of a fund's assets must consist of federally tax—exempt obligations at the close of each quarter of a fund's tax year in order for a fund to pass through the tax—exempt character of its income to shareholders. For all funds that qualified in 2015, the charts below and on pages 8 through 11 provide (1) the blended percentage of each fund's dividends paid in 2015 that was taxable, (2) the percentage of each fund's 2015 income that was derived from private activity bonds and subject to the alternative minimum tax (AMT), and (3) the breakdown of each fund's tax—exempt interest income by state.

Note that any capital gains distributed by the funds during 2015 are taxable. Short—term capital gains are reported in Box 1a of Form 1099—DIV as ordinary dividends and long—term capital gains are reported in Box 2a.

We suggest that you consult a tax professional or call your state's tax inquiry center to determine how this information may apply to your particular tax situation.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. This and other information are contained in the fund's prospectus and summary prospectus, if available, which may be obtained by contacting your investment professional or PIMCO representative or by visiting www.pimco.com.

Closed-end funds, unlike open-end funds, are not continuously offered. After the initial public offering, shares are sold on the open market through a stock exchange. Closed-end funds may be leveraged and carry various risks depending upon the underlying assets owned by a fund. Investment policies, management fees and other matters of interest to prospective investors may be found in each closed-end fund annual and semi-annual report. For additional information, please contact your investment professional.

A word about risk: Investing in the bond market is subject to risks, including market, interest rate, issuer, credit, inflation risk, and liquidity risk. The value of most bonds and bond strategies are impacted by changes in interest rates. Bonds and bond strategies with longer durations tend to be more sensitive and volatile than those with shorter durations; bond prices generally fall as interest rates rise, and the current low interest rate environment increases this risk. Current reductions in bond counterparty capacity may contribute to decreased market liquidity and increased price volatility. Bond investments may be worth more or less than the original cost when redeemed. Equities may decline in value due to both real and perceived general market, economic and industry conditions. Investors will, at times, incur a tax liability. Income from municipal bonds may be subject to state and local taxes and at times the alternative minimum tax; a fund concentrating in a single state is subject to greater risk of adverse economic conditions and regulatory changes.
